What Your Accountant & The IRS Never Told You!

This Special Report Reveals Little Known Secrets On The Most Amazing and Powerful Program Offered By The IRS.

By Mike Habib, EA

Millions of U.S. citizens find themselves at odds with the IRS. In fact over \$100,000,000,000 (that's 100 Billion Dollars) is owed to the IRS in taxes, penalties and interest.

Do they really think they're going to collect this money? Personally I don't think so! They know that many people simply don't have the money to pay these old tax liabilities.

But have they given up trying? Of course not!

Will the IRS just roll over and play dead on these old tax liabilities? Never ... because it would ruin their reputation.

They would lose all credibility to collect current taxes. It could cause the entire tax system to break down. It might even cause the U.S. Government to cease to exist.

So it's fair to say," the IRS will not stop trying to harass taxpayers who owe old taxes!"

But how are they going to collect old taxes from the taxpayers that just can't pay? We know they won't declare amnesty, so they'll have to do something else.

Well, quietly the IRS has been trying to solve this problem of collecting old taxes from taxpayers that simply don't have what they owe . . . and what they have been doing may surprise you! In fact, it shocks most taxpayers.

The IRS Has Been Making Deals!

Deals so good you may not even believe the amounts.

What would you say if I told you that the IRS has been accepting on average 13.5 Cents on the Dollar as Complete Settlement . . .

I mean complete! They are making deals where the total of your Taxes, Penalties and Interest owed to the IRS are completely wiped out.

So what about you? How come you haven't been told about these deals? I'm not sure why your accountant hasn't told you, other than maybe they don't know about these IRS deals themselves. Most IRS employees won't tell you because they look at this program as a give away deal and they personally don't support it.

So it's up to you to look out for yourself and see what's available.

These deals with the IRS are not for everyone. But if

you qualify they are truly a once in a lifetime opportunity to get you back on your feet financially.

Let's talk about this IRS deal program and what it's called. The IRS program is called OFFER IN COMPROMISE. During the last 12 months, over 27,000 of these deals (OFFERS) were accepted by the IRS.

These deals with the IRS can take quite a while to negotiate as it not uncommon for them to take 6-9 months. But when you consider how long it took you to get into trouble with the IRS and how long it will take you to get out, 6-9 months is not a very long time.

The IRS has stringent rules for potential taxpayers wishing to present a deal to them. The most important one is that any taxpayer wishing to request a deal must have filed all of their tax returns.

Now, I know that some of you may not have filed all your tax returns, but we can help you overcome this important rule. Some taxpayers can't find all their records to file old tax returns. Don't worry we even have ways to help you.

The bottom line is that having old tax returns filed is the easy part!

Taxpayers that are in compliance with all the IRS filing rules then have to look at their financial situation to see if they are within the IRS standards for having a deal accepted.

Our firm can quickly review your financial situation and explain the IRS guidelines for having a deal

accepted.

We offer a FREE Consultation for any taxpayer who thinks they may be a candidate for a deal with the IRS.

This could be a huge turning point in your life if you qualify. Can you imagine how good it would feel to have the burden of the IRS off your back.

Please call me at 877-78-TAXES (877-788-2937) to schedule an appointment for your FREE Initial Consultation.
